Application:	Apply when ready to participate
Vacancies	5
Languages:	
↔ Project:	English
↔ Local:	English

Project Description:

The home was founded in 1958 by Mrs Irene Willoughby, who recognized the need of a home for abandoned children. Now, the home is run by the first baby

that was hosted in this home. There are about 150 children in the home, from newborn babies to university-attendants. Most of the children were found somewhere in the bush or on the road, abandoned by their parents (due to unwanted pregnancy or not being able to raise the child financially).

Notice: *This is an Africa WG project. Please contact the SCI branch or partner organisation in your country for further information.*

Work: Volunteer has no fixed tasks but is free to find tasks for him/herself. In the morning he/she can take care of the babies, carry them around, change pampers, feed them and play with them. After the older children come back from school, he/she can help with homework (which is one of the major problems with the mass of over 100 children and just few staff), but also give extra lessons to smaller groups of children. In the afternoon he/she can arrange games, sports, and any other entertainment. He/she can also associate with the older inhabitants, that are the age of college-attendants.

Volunteers can also arrange cultural exchange, gardening, sport activities, making wall magazine, etc.

Requirements: Bring some info of personal health: how to brush teeth, wash hands, cut nails, etc.

Food: Local food materials and ingredients are provided. Volunteers will do self-catering in a local kitchen together with local volunteers. The meal provided is general for all volunteers. Additional (optional) meals are at the volunteer's expense.

To be a part of the future, we started a new project there 6 months ago. Creation of an alternative school (Klong toh Lem Academy) in the mangrove forest near Kok Payom. This green school aims that the human being can live in harmony with nature. Every Sunday, we go to the Academy with children of the village. Project Description:

This Alternative School was started from nothing but motivation and solidarity in March 2011 by the initiatives of a local environmental activist Pi Ju along with endless support of Kuan Mai Bong villagers and the work of the pilot international volunteers from Finland, Denmark, Germany and Thailand. The main aim shared with the local community of Kuan May Bong is to make the next generation (local kids) be able to stay self-sufficient in their environment and to respect it as a vital part of their life.

Work: Build and run this alternative school together with local and international volunteers. Volunteers also dedicate themselves for community work when there's need.

In the clearing around the school, volunteers will grow their own fruit, vegetables, raise chickens and fish (agricultural self-sufficiency). On week-ends, the kids gather at the school to do activities with the volunteers. About 25 children come every week-end to spend time at the school. The volunteers decide together how the school days are spent. The opportunities are endless: teaching different subjects such as basic English, art, agriculture, games. The kids vary in age, the youngest ones are approximately 7, and the oldest about 20. This is never a problem.

volvement in community matters is a must.

Project Description:

Velebit Association Kuterevo was founded in 1995 and since then it works for preservation of natural and cultural heritage. In 2002 the Bear Refuge was founded and today the village hosts more than 20 000 visitors and 200 volunteers. Besides the Bear Refuge, the Volunteers Station was founded as a place for cultural exchange and sustainable living education. We believe that without a broad understanding of human coexistence with wilderness, we won't be able to preserve bears. Thus the refuge creates space for education, exchange, learning and experiencing sustainable living.

Work: The work in the Refuge from Spring till Autumn includes building of new enclosures for the bears, new facilities for volunteers and visitors (paths, toilets, houses) and maintenance of the old ones. In that period the Refuge hosts around 20 groups of volunteers (Belgian Scouts, SCI international workcamps, Peace Caravan, German red Cross, Bouworde Belgium etc.) as well as more than 50 individual volunteers that are coming from all over the world. Depending on the season, the volunteers will be involved in: gardening, building, constructing, coordinating work of groups, helping in organization of events, collecting food for the bears, making souvenirs etc. The volunteer will work 7 hours per day and approximately 6 days per week. Sometimes more and sometimes less, what will depend on the weather conditions and amount of volunteers and groups present in the refuge. The work can be physically very demanding and socially intensive due to a big voluntary community.

Requirements: We are open for different profiles, but a certain advantage will be given to candidates ready for physical work and skilled in working with tools for constructing and building (chain-saw, hammers, ax), carpentry and other outdoor tasks. Volunteers should be open-minded, communicative, flexible and reliable. Driving license is also an advantage. The preference will be given to people not suitable for EVS.

Food: Food is provided and prepared together with other volunteers. Mostly vegetarian, based on groceries from the local community, but still in accordance with every person's needs.

Accommodation: Volunteers will live in the village, the Volunteers Station, an old house with very basic conditions where all volunteers gather. There is an outdoor bathroom with solar heating system, common kitchen and composting toilets.

Pocket money: 50 EUR per month

Insurance: Volunteers should get insurance for themselves.

Fees: None

Visa: For LTV projects longer than 3 months, the volunteer will have to apply (in Croatia) for a residence permit. We will also provide necessary documents if a visa would be needed.

Others: The organization is open for different arrangements according to the volunteer's needs and financial situations (i.e. it would be possible to cover part of the travel costs and similar).

Project Description:

Tent of Nations is an educational and environmental family run farm, growing olives, vines, almonds, various vegetables & fruit trees.

The project aims at bringing people with different backgrounds together, to learn from each other and to try to understand each other. The situation in Palestine plays a central role.

Over 15 years the family fights in a peaceful way to prevent confiscation of a threatened piece of land. Foreign volunteers play an important role by showing international presence, by helping to cultivate the land and by providing information about the project back home.

***Notice:** This is a MIDI WG project. Only volunteers from the following organisations can apply for this project: SCI Belgium, VIA Netherlands, SCI Germany, SCI Switzerland, SCI Catalonia, SCI Italy, SCI Hellas, SCI France, KVT Finland, IVS Great Britain, VSI Ireland. Please contact the SCI branch or partner organisation in your country for further information.*

Work: The work takes place on 'Daher's Wineyard'; the land of Tent of Nations. The work will consist of farm work like planting trees, watering plants, cleaning pieces of land, harvesting (tomatoes, grapes, olives, almonds, etc), caring for the animals, helping in the kitchen, creating (wall) painting as well as improving the infrastructure on the land (renovations, building of structures, digging new wells, cleaning caves, etc). Often new facilities will be built underground, because there is no permit to build on the land (the land is located in Area C, which is under full Israeli control).

During the summer children from the surroundings will come to the land and

activities will be organised for them.

Of course the exact work will depend on the season and on which larger projects are running. Volunteers are invited to bring ideas and initiatives. However, be aware that there will be restrictions that you might not be used to (occupation, permissions, financial situation, security)

Requirements: Be ready for heavy physical work in rough conditions (hot during summer days and cold during nights) and isolated location.

Volunteers are expected to be at the land as much as possible, because the international presence is key (also: traveling in Palestine is a luxury).

5 work days a week. Free days will be agreed with the project (not the same for all long term volunteers).

It can happen that Israel refuses entry. This is at your own risk (no refund from SCI or Tent of Nations).

Food: The meals will be simple but nutritious. Home grown vegetables, daily picked eggs, home picked and prepared olives and olive oil will be part of the diet. Usually the family will cook, but sometimes the volunteers will assist or create a meal.

Accommodation: Volunteers will stay in one of the two small houses or in a big tent (containing beds). Primitive living conditions!

Water: project is dependent on self-made cisterns. It is key to be very careful with the use of water. Drinking water is bought.

Pocket money: None

Insurance: to be organized by the volunteer

Fees: 150 EUR per month. To cover food and accommodation. Part of the sum is dedicated to support the project.

Visa: When you enter in Tel-Aviv (Ben Gurion Airport), you will automatically receive a visa for 3 months. If you want to extend it, you will have to leave the country after three months. When re-entering it is unclear what kind of visa you will receive.

Others: The project has installed solar panel, which produces few hours of electricity each evening. There is wifi. If you bring your laptop, you can use it.

Only volunteers from the following organisations can apply for this project: SCI Belgium, VIA Netherlands, SCI Germany, SCI Switzerland, SCI Catalonia, SCI Italy, SCI Hellas, SCI France, KVT Finland, IVS Great Britain, VSI Ireland
