

Living Library Week_ Call for group leader

Project:

We are looking for **1 group leader** for the youth exchange "**Living Library Week**", which will take place from 30/09/2020 to 09/10/2020 in the beautiful place called la Città dell'Utopia, in Rome. A group of young people from **Italy, Catalonia, Greece, Hungary and Austria** will have the opportunity to explore together the themes of emotional intelligence, interpersonal communication and relationships, through the tool of the Living Library. We will create together living books to tell and make "read" to other young people.

The Living Library methodology aims to build a positive framework for communication between people able to challenge stereotypes and prejudices through dialogue. The theme of each book is the life of a person and the narrator is the same individual who, through his voice and testimony, shares not only words and expressions, but also his own values and beliefs, norms and myths of the communities in which he they were relieved. This methodology allows not only to bring people together, but also to develop their emotional abilities with an important impact in terms of personal development and active citizenship.
